31. A big thank you has to go out to all the amazing nurses in Our Ladys Hospice in Harolds Cross. A dear friend of mine passed away at the start of this year. And right up to the end the wonderful nurses made her smile and made her comfortable. All the family and friends agreed that the nurses helped Helen and themselves through that difficult time. So THANK YOU!!

32. Id like to thank you nurse Lorraine in Limerick regional hospital (5B). The way she treats people is unbelievable and i wish that there could be more nurses like her. Moreover she is very good looking which made talking to her so much more easier. :) But yeah im glad that there are nurses like Lorraine (sorry cant remember her surname)

33. Thanks to all of the nurses that work so hard and so selflessly in order to get people back on their feet. They deserve far more credit than they get and are daily making a real difference in peoples lives. Keep up the good work.

34. My Dear Dear Grand Mother was diagnosed with inoperable cancer and very quickly faded and past. Much too quickly. With in a week she was in the Jockey Hospice on the Curragh in Kildare. We we're devastated as a family as Granny went down hill fast. However the staff at the hospice were just super there was one nurse there unfortunately due to the grief I guess, I can not remember her name. Only that she had brown short hair and the most genuine and sincere smile. This nurse was very good to my Gran and us her family hospitable and understanding. I think nurses and care staff in hospices are really to be applauded and respected for the care and kindness they bring to our loved ones last journey.

47. My mate Nathan is a nurse and I swear to god, he goes through so much in that job it's a miracle he's still alive and well. He works his ass off and puts in so much attention and care to what he does that it really highlights just how much praise these guys need: it's by no means an easy job and we'd be lost without nurses like him. Thank you for all the late hours, all the patience, all the support and all of the times you've put yourself at potential risk to help others. Saints on earth. :)

53. There was a nurse who took care of my son in crumlin when he was first born. Nurse london was her name. She was amazing. I wouldn't have got through that hard time without her. It turns out she was from my home town as well. That was 16 years ago but I'll never forget her. thanks so much x

54. I'm going into nursing myself and after working a year as a healthcare assistant I can tell from experience that nurses are one of the hardest working set of people I have witnessed. It takes a lot of knowledge and courage to be a nurse. I'm looking forward to becoming a nurse and the challenge that comes with it is something that excites me even further.
