215. Nurses do a fantastic job every day. And they do it in the best interest of their patients and love of their job. I am proud to be a nurse and proud of all my nursing colleagues. 217. On behalf of my colleagues, executives and members of the APTS, I wish to express my sincere appreciation to the personnel engaged in Nursing, for their dedicated professional and personal care, attention and concern of patients entrusted to them in hospitals, nursing homes and family homes. Their understanding and helpful assistance of anxious and often over anxious family members regarding the illness, short or long term of their loved ones, is to be highly commended. We are fortunate to have nurses of such sterling quality. May they be adequately remunerated for their committed, loving, often unnoticed, unrewarded services both day and night.
