364. Nurses are a sector that don't get enough praise for the great work that they do on a daily basis. I would like to thank nurses worldwide for the hard work that they put in to make peoples' lives that bit better.

365. Thanks to all of the nurses that work so hard and so selflessly in order to get people back on their feet. They deserve far more credit than they get and are daily making a real difference in peoples lives. Keep up the good work
